## INTRODUCTION

# Effective Storage

For a *Better Tomorrow*

The construction of storage cabinet shutter system consists of the basic parts, which are designed to fit and interact together in a very simple and easy manner.

### **Storage Cabinet Shutter System**

APPL storage cabinet shutter system combines a few running properties and smoothness of storage cabinet with the high-quality look and feel of solid aluminium system. The basic principle is to simply slide the individual thermoplast strip together to form the shutter "CARPET", which further slides in the track system. The storage cabinet strips are at right angle to the direction of their travel and the carpet door opens in the upward direction. The track is fixed in the left & right side of the cabinet..

With inception in 1961, the enterprise that today stands tall as DCJ Group, India's leading system oriented conglomerate, comprises of 3 companies:

- Ajay Poly Pvt. Ltd. ([APPL](#)),
- ENCRAFT India Pvt. Ltd. ([ENCRAFT](#)) &
- Ajay Industrial Polymers Pvt. Ltd. ([AIPPL](#))

The Group has innovated and introduced a number of thermoplastic engineering products in India in its 5 decades of journey. APPL is among the largest manufacturers and suppliers of Refrigeration Sealing Systems for household and commercial industries (Visi-Cooler, Chest Freezer etc.) in India catering to both multinationals and India white goods industries. APPL is also the largest manufacturer of a wide range of custom made extruded specialty profiles for various sectors. The brand APPL under the flagship company of the DCJ Group incorporated in 1991. Our designs are an outcome of joint efforts with Original Equipment Manufacturers (OEM's) and our most modern manufacturing and design facilities spread across in India in 9 locations.

-The carpet is made by combining all the strips.  
-Purpose of Carpet is to slide in track for opening and closing of cabinet.

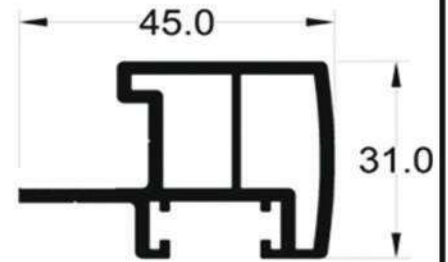

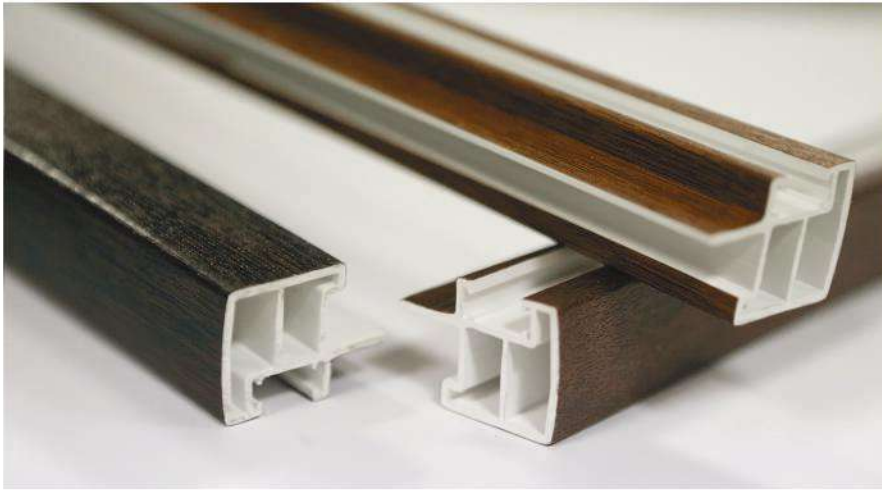

## THERMOPLASTIC POLYMER CARPET

It is made up of aluminium  
Fixed at the top of the storage cabinet shutter system.

## ALUMINIUM TOP PLATE

Storage cabinet track is designed to promote smoothness, quiet travel of shutter along a straight section.

**RUNNING TRACK**

Fixed at the bottom of the strips carpet  
Fixed for providing the upward pullforce for opening of the storage cabinet shutter system

**ALUMINIUM HANDLE**

- It is made up of nylon.
- This cap is fixed at the top and bottom on the track pillars of the storage cabinet shutter system.

**END CAP**

## Auxillary Components Of STORAGE CABINET SHUTTER SYSTEM

**3mm Tape:** Clear, fiberglass-reinforced tape, affixes to the back of the shutter carpet.

### Stopper:

It is made up of aluminium material.  
Fixed into the aluminium handle.  
Used for stopping the carpet at upper side.

### Remote Control:

This is a wireless hand held unit and has one or more control buttons.  
Transmission distance is 200 mtr open space, 35 mtr on two walls.

### Wool Pile:

It is used for smooth movement of the strip carpet.  
It is an anti noise wool pile. Using this makes the entire operation noiseless.

## CABINET DETAILS
